

## Abbreviations

- A... - If preceded by a number this indicates that the result was split into A and B strings (e.g. 4B – 4th in B string). If preceded by a number and 'r' then this indicates that the race was one of a series, possibly graded, designated A, B, C, etc. (e.g. 3rC = 3rd in race C). Sometimes the graded races are identified by a number (e.g. 1r2 = 1st in race 2, or where there is more than one series of races at a sprints meeting then 1r2.2 = 1st in series 2 race 2).
- AAA - Amateur Athletic Association.
- a - Altitude.
- BAL - British Athletics League
- BUCS - British Universities & Colleges Sport
- CAU - Counties Athletic Union
- d - Decathlon.
- dt - Doubtful timing
- e - Estimated.
- EM - Elite Men.
- h - Heat (e.g. 1h2 = 1st in heat 2).
- i - Indoor performance.
- Inv. - Invitational.
- m - Position in race at the time an intermediate time was published, even though place times and other down the field may have been recorded.
- MSL - Men’s Southern League (until 2010).
- n - Not a winning time. In earlier days often only the winners time was taken using the stipulated three timekeepers.
- NJL - National Junior League.
- ns - non-scoring.
- nwi - No wind-speed indicator.
- q - Quarter-final (e.g. 3q4 = 3rd in quarter final 4).
- r - Race number, used where there is more than one race, usually graded.
- s - Semi-final (e.g. 4s2 = 4th in semi-final 2).
- SAL - Southern Athletics League (from 2011, Men and Women).
- SCAAA - Southern Counties Amateur Athletics Association (from 1961 to 1990, formerly Southern Committee of AAA).
- SCWAA - Southern Counties Women’s Amateur Athletic Association (from 1930 to 1990).
- SEAA - South of England Athletics Association (from 1991 – formed from SCAAAA and SCWAAA)
- SLAN - South London Area Network.
- UKWAL - United Kingdom Women’s Athletics League.
- UKYDL - United Kingdom Youth Development League.
- + - Official intermediate time taken during a longer race.

## Consolidated lists over imperial and metric distances

To facilitate the ranking of athletes over the Club’s full history, times set over imperial distances have been converted using a formula for each individual case, i.e., not simply adjusting the time by a set figure for the event. Where the equivalent metric distance is longer, then the assumption is that the race pace would have been maintained for the additional distance. Converted performances may be identified by the presence, after the runner’s name, of the time set for the actual race.

100 yds = 91.44 metres  
220 yds = 201.168 metres  
440 yds = 402.336 metres

880 yds = 804.672 metres  
1 mile = 1,609.344 metres  
3 miles = 4,828.032 metres

6 miles = 9,656.064 metres

## General notes

Where we are unsure of or do not know performance detail such as position, meeting title, venue or date, we have indicated this with *italics*. Further information would be welcomed, as indeed would be full first names where an initial only is shown.

Only performances where the athlete was a member of Belgrave Harriers are shown. Better performances may have been set before or after membership if the athlete moved clubs.

Performances recorded by earlier statisticians who have marked them 'unsubstantiated' or 'unofficial' have not been shown in the main list – for all we know, such times may have been taken from the spectator's stand or during a training time trial. These 'unofficial' times, seem to show up for the same people in different events. We have included such times as footnotes, just to acknowledge their appearance in earlier ranking lists.

To maintain numeric sequence, manual times taken to 1/10th have been shown above automatic times of the same value. I.e. a manual 100 metres time of 11.0 is shown before an automatic time of 11.00. The standard of manual timekeeping in the UK is generally very good at the better meetings where times of these standards have been recorded, and a time of 11.0 actually represents a hand-held watch time of anything from, 10.91 to 11.00 as taken by the timekeeper, but rounded up to the next 1/10th. In earlier days, of course, automatic timing was not even available.

For the 100 metres, as far as possible, we have listed athletes by their best fully automatic timing inside the allowable wind limit of 2.0 metres per second. With one exception, this takes us to around 10.70. Beyond that, we have used the best automatic or manual times available assuming performances to be inside the wind limit if there is no evidence to the contrary. In just a couple of cases, where no wind-legal time has been found, we have had to allow a wind-assisted time to position the athlete in the list. Supplementary performances are often listed below each athlete's name and will help the reader to judge approximately where that athlete might place in the list using other criteria.

<sup>1</sup> Jim Evans has been ranked using his superior hand-timed mark as it was a high standard meeting where in all probability three timekeepers were allocated to each finishing position; a wind-speed indicator was also used. The race was won by Belgrave's Ernest Obeng in 10.4, a time he regularly clocked at this period.

<sup>3</sup> Frank L. Craft, who joined Belgrave in June 1951, aged 25, reputedly ran 100 yards in 9.9 (10.8 metric) at Motspur Park (in 1951 or possibly earlier) and 9.8 in 1952. These times are not listed among the best British performances during those years and we are unable to find any further information to back them up. He had emigrated to Australia by the end of 1951.

<sup>4</sup> Unofficial times of 11.0 have been noted in the past for C. Dunn (1981), J. Dunn (1982) and D. Hemphill (1982).

<sup>5</sup> A 1959 21.8 timing has been postulated for Peter Eldridge, possibly a performance set in India. He did run 21.9 in that country, for 200 metres, which was converted to 22.0 for the 1959 ranking lists. No trace of a 21.8 has been found.

<sup>6</sup> Charles Jones' 22.1 was set at Woodford where Belgrave regularly participated in the Vancouver Trophy Meeting. The published results only go to 3rd place – 22.0.

<sup>7</sup> Clive Ryan won the 1958 Surrey County 220 yards Champs. in 22.4. His 22.3 may well have been set in the heats.

<sup>8</sup> Power of 10 shows Martin Blencowe U15 Belgrave with a 22.43w performance when placing 2nd in the English Schools Champs in 2000. However, he did not join Belgrave until 2008.

<sup>9</sup> Frank L. Craft may have run 220 yards in 21.8 in Australia, in 1952 (wind-assisted) but this cannot be backed up by any evidence found so far. He had emigrated in 1951.

### 1,500m (and 1 mile) – top 100 by decade

1920-29	1930-39	1940-49	1950-59	1960-69	1970-79	1980-89	1990-99	2000-09	2010-19	2020-29
0	0	1	4	9	7	20	19	25	8	7

<sup>10</sup> Stewart McSweyn AUS ran 3:34.80, an official time recorded en route to his 3:49.59 in the Emsley Carr mile at the London Athletics Meet at the Olympic Stadium on 20 July 2024. However, his status at the time was such that he was not technically eligible to represent Belgrave Harriers.

In view of the fact that the 1 mile is, to a certain extent, still regarded as a classic racing distance, for interest we show below a consolidated list for 1 mile with a cut-off at 4:05.0, followed by a pure 1 mile list with a cut-off at 4:15.0.

## 1 mile (and 1,500 metres)

See footnote regarding additional time not included above. <sup>14</sup>

<sup>12</sup> “The Belgravian” reports this as a Middlesex v Cambridge University meeting but doesn’t mention a venue. “British Athletics” reports the time of 4:10.6 as being set at Oxford. “Athletics Weekly” does not appear to have reported the match at all. Why would Middlesex or Cambridge University host a match at Oxford? The most likely explanation is that it was actually an Oxford University v Middlesex match; and this ties up with information unearthed for Ranjit Bhatia’s [biography](#), where in 1958 he ran the mile in just such a match, probably coming up against John E. Davies.

<sup>13</sup> “Athletics Weekly” doesn’t show John Stow in the result. We can only assume that there was a mistake with the original results and that a race number originally allocated to someone else was subsequently assigned to Stow.

<sup>14</sup> Stewart McSweyn AUS ran 3:49.59 for 5th place in the Emsley Carr mile at the London Athletics Meet at the Olympic Stadium on 20 July 2024. However, his status at the time was such that he was not technically eligible to represent Belgrave Harriers.
